INTRODUCTION
- The worklight is intended for illumination in dry indoor areas
- This tool is not intended for professional use
- Read this instruction manual carefully before use and save it for future reference

SAFETY
GENERAL
- Handle the worklight with care
- Do not direct the light beam at persons or animals and do not stare into the light beam yourself (not even from a distance)
- Do not cover off the lamp head while operating the worklight (the lamp head heats up during operation and can cause burns when the heat accumulates)
- Only use the following batteries and chargers with this tool
  - SKIL battery: BY5197E-03 BY5196E-03
  - SKIL charger: SC5358E-01 QC5360E-01 QC5359E-00
- Do not use battery when damaged; it should be replaced immediately
- Do not disassemble the battery
- Do not expose tool/battery to rain
- Permitted ambient temperature (tool/charger/battery):
  - when charging 4...40°C
  - during operation –20...+50°C
  - during storage –20...+50°C

EXPLANATION OF SYMBOLS ON TOOL/BATTERY
① Read the instruction manual before use
② Do not dispose of electric tools and batteries together with household waste material
③ Insulation class III
④ Do not stare into the light beam

USE
- Charging battery
  - read the safety warnings and instructions provided with the charger
- Removing/installing the battery
- Battery protection
  The tool is suddenly being switched off or prevented from being switched on, when
  - the load is too high --> remove load and restart
  - the battery temperature is not within the allowable operating temperature range of -20 to +50°C --> 2 levels of the battery level indicator start flashing when pressing the battery level indicator button; wait until battery has returned within the allowable operating temperature range
  - the battery is nearly empty (to protect against deep discharge) --> a low battery level or flashing low battery level is shown by the battery level indicator when pressing the battery level indicator button; charge battery
  - do not continue to press the on/off switch after the tool is switched off automatically; battery may be damaged
- Operating the tool
  - press switch on/off switch once to turn on the light in high brightness mode
  - press switch on/off switch again to select low brightness mode
  - press switch on/off switch again to turn off 1 light
  - press switch on/off switch again to turn off both lights
- Adjusting the lamp head
  - release lock knob
  - the lamp head pivots 170 degrees
  - manually move the head to any position
  - tighten lock knob to keep the position
  - do not force the head beyond 170 degrees
- Adjusting the upper light
  - the upper light pivots 270 degrees
  - manually move the head to any position
  - do not force the head beyond 270 degrees
  - the lights automatically turn off when the upper light is folded closed
- Mounting options
  - release hook from the tool to hang it
  - use tripod mount to mount the tool on a tripod

MAINTENANCE / SERVICE
- This tool is not intended for professional use
- Always keep the tool clean
  - remove battery from tool before cleaning

ENVIRONMENT
- Do not dispose of electric tools, batteries, accessories and packaging together with household waste material. The electric tools, accessories and packaging should be sorted for environment-friendly recycling
  - prior to disposal protect battery terminals with heavy tape to prevent short-circuit
WARRANTY

SKIL WARRANTY POLICY
For all SKIL warranty & enquiries, please contact 1300 01 SKIL (1300 01 7545) Monday to Friday 9:00am to 5:00pm EST

Chervon Australia Pty Ltd ABN 36 165 077 501 (“Chervon”) warrants to the original domestic purchaser that this product will be free from defects in materials and workmanship for 5 years from date of purchase, and any battery or charger will be free from defects in materials and workmanship for 3 years from date of purchase. Consumables will be covered by a 3-month warranty and a complete list can be found inside the manual.

Notwithstanding the foregoing, if a SKIL consumer Power Tool is used for industrial, professional or commercial purposes, the foregoing warranty will apply for a duration of ninety days from the date of purchase. This ninety-day commercial warranty pertains to the SKIL Power Tool range only.

This SKIL product warranty is only applicable to purchases from authorised SKIL retailers. This warranty will not apply to SKIL products that are purchased from Amazon, eBay and any other non-authorised online retailer. This SKIL product warranty does not apply to any parallel imported product and does not apply to any SKIL products that are not purchased from an authorised SKIL retailer. To make a claim, return the faulty item together with proof of purchase directly to your closest service agent or to the place of purchase. Any handling and transportation costs (and other expenses incurred in claiming this warranty) are not covered by this warranty and will not be borne by Chervon. The replacement product or part or repaired product will be made available for your collection at an address nominated by Chervon. Where a valid warranty claim is made, Chervon will replace the defective product or repair the fault. Where the product is repaired, Chervon may use refurbished parts. This warranty does not cover normal wear and tear, misuse or abuse. This warranty may also be further limited or voided as specifically detailed in the product manual. Chervon has no other liability under this warranty. The benefits to you given by this warranty are in addition to other rights and remedies imposed by State and Federal legislation that cannot be excluded. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Chervon Australia Pty Ltd, Unit 14, 5 Kelletts Road, Rowville, VIC. 3178.
